**Supplier policy**

The Bonafarm Group ensures that its purchases are made using predictable, consistent and clear rules. We believe that our suppliers play a key role in our business success, and that working with our Companies is also attractive and beneficial to them.

The Bonafarm Group ensures the transparency of the bidding processes and provides equal opportunities for all suppliers who submit valid bids during the bidding process. The Bonafarm Group does not charge its suppliers for entering or keeping goods or services in the inventory of its products or services.

It is important for us to use environmental friendly technologies and to ensure safe and healthy working conditions during the operation of our sites.

We are constantly updating and improving the quality of our activities and services, taking into account customer expectations, environmental, health, work and fire protection aspects, legislation and European Union requirements. Within our resources, we pay increased attention to human resource development, and we recognize and encourage the innovation activities of individuals / groups.
